Narendra Jatti

CloudOps@Bayer(C2H) | ML & AI Enthusiast
Bengaluru, Karnataka, India

Summary

I am a DevOps engineer by profession. Loves to write and share
thoughts on things around around us.

I was a strong contender nominee(Runner Up) for Technology
Champion Award Category at our organization.

I am having 3.5 years of experience in the areas of AWS, Docker,
Kubernetes, Terraform, Monitoring and Observability and also
DevSecOps. Owned the project infrastructure, optimized the costs.
Good oral and written communication and documentation skills and
an excellent team player. As a solo team member, won first prize
in hackathon for implementing scalable microservice deployment
solution for the node app. Also got appreciation from Bayer Global
Digital Transformation Leader for Infra contribution towards hosting
two internal applications. Worked in Bayer-client location

towards hosting two internal applications.

Quikr
DevOps Engineer
December 2015 - September 2016 (10 months)
Bengaluru, Karnataka, India

It's a great company to work with,loving the startup culture at Quikr.

MYOAP-My Online Admission Portal
Co-Founder
May 2015 - March 2016 (11 months)
Bengaluru, Karnataka, India

We have tried to launch SAAS product -My online admission portal(MYOAP)
for the educational institutes. The aim was build a one stop solution platform
for the institutes-admission, attendances, assessment, course materials
among other features. Built a MVP and pitched to investor's for raising funds.
Due to some challenges couldn't launch the product. Back in 2015 it was
innovative and game changing product for both students and institutes.
